

DESCRIPTION

Mist Ease is a high-quality, low viscosity vegetable-based oil recommended for use as a microdosing lubricant for machining ferrous and non-ferrous components. Mist Ease has a uniquely low surface tension that enables very small quantities to spread out and wet large surfaces very quickly.

Combining this low surface tension characteristic with high film strength and superb lubricating properties gives Mist Ease the ability to product components with superb surface finishes at feeds and speeds not previously advisable.

HMIS SYMBOL

Health	1
Fire	0
Reactivity	0
Personal Protection	

FEATURES

- Micro lubricant - low usage, cost-effective
- Low surface area - ease of wetting/spreadability
- Highly lubricious - excellent surface finish
- Minimal application - minimal dragout on surface and minimal disposal/environmental issues
- Excellent oxidation stability

CAUTION

Please refer to the SDS for more detailed precautionary measures, handling instructions, and emergency procedures.
KEEP OUT OF REACH OF CHILDREN.

FIRST-AID

Eyes: Flush with copious amounts of water lifting lids and removing contact lenses to ensure complete irrigation—get medical attention.

Skin: Flush with water and then wash with soap and water. Launder contaminated clothing before reuse. Get medical attention if irritation persists.

Inhalation: Remove to fresh air and assist breathing as necessary—get medical attention.

Ingestion: Wash out mouth with water. If conscious, give small quantities of water to drink. Do not induce vomiting. Get medical attention.

DIRECTIONS

Use straight from the container. No dilutions necessary.
