

DESCRIPTION

The Cutter is a synthetic lubricant effective in punching, sawing, machining, cutting, tapping, boring, and grinding operations on all steel and non-ferrous metals. The Cutter not only lubricates, but also cools the machining operations, allowing for longer tool life, and more precise machining.

FEATURES

- Thick foam clings to vertical surfaces
- High performance cooling action allows for higher cutting speeds for increased productivity
- Combined synthetic and natural lubricants

FIRST-AID

Eyes: Rinse eyes cautiously with lukewarm water while holding eyelids open for several minutes. Remove contact lenses if easy to do so. Continue rinsing for 15–20 minutes. Take care not to rinse contaminated water into unaffected eye or face. If irritation persists, get medical attention.

Skin: Remove contaminated clothing. Gently blot or brush away excess product. Wash with lukewarm water for 15–20 minutes. If feeling unwell, get medical attention.

Inhalation: Remove to fresh air and assist breathing as necessary—get medical attention if feeling unwell.

Ingestion: Rinse mouth. Do NOT induce vomiting. Get medical attention.

CAUTION

Please refer to the SDS for more detailed precautionary measures, handling instructions, and emergency procedures. **KEEP OUT OF REACH OF CHILDREN.**

DIRECTIONS

1. Shake can well before using
2. Spray moderate amount of foam on cutting tool
3. Re-spray often, to keep tools cool and well lubricated
